

Class IX – Computer Science

MCQs with Correct Answers

Based only on the uploaded STB Unit 2 and Unit 3 materials

Chapter 2: Fundamentals of Operating System

1. Which of the following software performs all the basic tasks?

- a) System software
- b) Application software
- c) Utility program
- d) Device drivers

Correct Answer: a) System software

2. Which of the following operating system is widely used in computers today?

- a) Android
- b) Mac
- c) Linux
- d) Windows

Correct Answer: d) Windows

3. Which of the following operating systems is used in smart phones?

- a) UNIX
- b) Linux
- c) Android
- d) DOS

Correct Answer: c) Android

4. Which of the following is a process of starting the computer operating system?

- a) Resource management
- b) Booting
- c) Installation
- d) User interface

Correct Answer: b) Booting

5. Which of the following helps us to interact with operating system?

- a) System software
- b) Booting
- c) Layout
- d) Interface

Correct Answer: d) Interface

6. Which of the following is the interface of DOS operating system?

- a) CLI
- b) GUI
- c) Menu driven
- d) All of these

Correct Answer: a) CLI

7. Which of the following interfaces is the most friendly interface for computer users?

- a) CLI
- b) GUI
- c) Menu driven
- d) All of these

Correct Answer: b) GUI

8. Which of the following is a text-based interface of the operating system?

- a) CLI
- b) GUI
- c) Menu driven
- d) All of these

Correct Answer: a) CLI

9. Which of the following types of operating systems uses picture like objects to interact with the computer?

- a) CLI
- b) GUI
- c) Menu driven
- d) All of these

Correct Answer: b) GUI

10. Which of the following operating systems a single user can access the computer system at a time?

- a) Single user
- b) Multi-user
- c) Batch processing
- d) Time sharing

Correct Answer: a) Single user

11. Which of the following operating systems many computer users can use at a time?

- a) Single user
- b) Multi-user
- c) Batch processing
- d) Time sharing

Correct Answer: b) Multi-user

12. Which of the following operating systems execute with minimum human interaction?

- a) Single user
- b) Multi-user
- c) Batch processing
- d) Time sharing

Correct Answer: c) Batch processing

13. Which of the following operating systems allows multiple users to share resources simultaneously?

- a) Single user
- b) Multi-user
- c) Batch processing
- d) Time sharing

Correct Answer: d) Time sharing

14. Which of the following operating systems is a time bound operating system which has fixed time limit?

- a) Single user
- b) Multi-user
- c) Batch processing
- d) Real time processing OS

Correct Answer: d) Real time processing OS

15. The software which performs all the basic tasks is

- a) Antivirus
- b) Start menu
- c) Operating system
- d) Office automation

Correct Answer: c) Operating system

16. A program that enables users to interact with the computer is called

- a) My document
- b) Start menu
- c) Desktop
- d) Interface

Correct Answer: d) Interface

17. The process of checking computer, starting operating system and making it ready to work is referred to as

- a) Resource management
- b) Booting
- c) Error checking
- d) File management

Correct Answer: b) Booting

18. The number of user(s) that can access the resources simultaneously on a multiuser OS is / are

- a) One
- b) Two
- c) Many
- d) Only administrator

Correct Answer: c) Many

19. Which management controls the dynamic allocation and de-allocation of processor, memory etc.?

- a) Resource
- b) File
- c) I/O
- d) User

Correct Answer: a) Resource

20. In which operating system jobs are executed in groups?

- a) Batch processing
- b) Time sharing
- c) Single user
- d) Real time

Correct Answer: a) Batch processing

21. The system that guarantees that critical tasks should be completed without shortest delay is

- a) Batch processing
- b) Hard real time
- c) Soft real time
- d) Time sharing

Correct Answer: b) Hard real time

22. DOS is an example of

- a) Real time processing OS
- b) Multiprocessing OS
- c) Single-user OS
- d) Multi-user OS

Correct Answer: c) Single-user OS

23. The group of programs that helps office workers to do a number of routine tasks easily and efficiently is called

- a) Operating system
- b) E-mail
- c) Anti-virus
- d) Office automation

Correct Answer: d) Office automation

24. The operating system that allows frequent switching from one task to another is

- a) Batch processing
- b) Real time processing
- c) Single user
- d) Time sharing

Correct Answer: d) Time sharing

25. Which of the following software performs all the basic tasks?

- a) System software
- b) Application software
- c) Utility program
- d) Device drivers

Correct Answer: a) System software

26. Which of the following helps us to interact with operating system?

- a) System software
- b) Booting
- c) Layout
- d) Interface

Correct Answer: d) Interface

27. Which of the following operating systems many computer users can use at a time?

- a) Single user
- b) Multi-user
- c) Batch processing
- d) Time sharing

Correct Answer: b) Multi-user

28. Which of the following operating systems is a time bound operating system which has fixed time limit?

- a) Single user
- b) Multi-user
- c) Batch processing
- d) Real time processing OS

Correct Answer: d) Real time processing OS

29. The process of checking computer, starting operating system and making it ready to work is referred to as

- a) Resource management
- b) Booting
- c) Error checking
- d) File management

Correct Answer: b) Booting

Chapter 3: Office Automation

1. Which of the following software is used for word-processing application?

- a) MS Word
- b) MS Access
- c) MS PowerPoint
- d) MS Excel

Correct Answer: a) MS Word

2. Which of the following first presented the concept of WYSIWYG?

- a) MS Word
- b) MS Excel
- c) MS PowerPoint
- d) MS Access

Correct Answer: a) MS Word

3. Which of the following is the world's widely used software for documentation?

- a) Google Doc
- b) Word Pro
- c) DOS Editor
- d) MS Word

Correct Answer: d) MS Word

4. Which of the following allows user to control the look and feel of his/her document?

- a) Page Layout Tab
- b) Home Tab
- c) Insert Tab
- d) View Tab

Correct Answer: a) Page Layout Tab

5. Which of the following is the number of groups in the Page Layout Tab of MS Word?

- a) 2
- b) 3
- c) 4
- d) 5

Correct Answer: d) 5

6. Which of the following is a predefined set of formatting, colours and settings that changes the overall design and look of the entire document?

- a) Themes group
- b) Page setup group
- c) Page Background
- d) Paragraph

Correct Answer: a) Themes group

7. Which of the following help us set the page layout properties such as margins, orientation and size?

- a) Themes
- b) Page setup
- c) Page Background
- d) Arrange

Correct Answer: b) Page setup

8. Which of the following is the area or space between the main content of a page and the page edges?

- a) Margins
- b) Orientation
- c) Size
- d) Column

Correct Answer: a) Margins

9. Which of the following sets the contents of the page or sections in portrait (vertical) or landscape (horizontal)?

- a) Hyphenation
- b) Line number
- c) Breaks
- d) Orientation

Correct Answer: d) Orientation

10. Which of the following is used to choose the size of the paper for content section or entire document?

- a) Margins
- b) Orientation
- c) Size
- d) Columns

Correct Answer: c) Size

11. Which of the following buttons is used to split the text into two or more vertical columns?

- a) Columns
- b) Break
- c) Line number
- d) Hyphenation

Correct Answer: a) Columns

12. Which of the following buttons is used to add line numbers to the left of each line?

- a) Margins
- b) Orientation
- c) Line number
- d) Size

Correct Answer: c) Line number

13. Which of the following settings are used for special documents such as certificates, invitations, brochures, essays etc.?

- a) Page Background
- b) Paragraph
- c) Arrange
- d) Page setup

Correct Answer: a) Page Background

14. Which of the following is a faded background image that displays behind the text in a document?

- a) Watermark
- b) Page colour
- c) Page border
- d) Page orientation

Correct Answer: a) Watermark

15. Which of these buttons is used to change the colour of the page in MS Word?

- a) Page size
- b) Page colour
- c) Page background
- d) Border

Correct Answer: b) Page colour

16. Which of the following buttons is used to put a border around the page in MS Word?

- a) Watermark
- b) Page colour
- c) Page border
- d) Page size

Correct Answer: c) Page border

17. In which of the following groups can we modify all the settings of the paragraphs that appear in our document?

- a) Page background
- b) Paragraph
- c) Arrange
- d) Page setup

Correct Answer: b) Paragraph

18. Which of the following is used to define amount of blank space used to separate a paragraph from left margin?

- a) Left indent
- b) Right indent
- c) Space before
- d) Space after

Correct Answer: a) Left indent

19. Which of the following is used to define amount of blank space used to separate a paragraph from right margin?

- a) Left indent
- b) Right indent
- c) Space before
- d) Space after

Correct Answer: b) Right indent

20. Which of the following is used to indicate how much space is added before the selected paragraph?

- a) Left indent
- b) Right indent
- c) Space before
- d) Space after

Correct Answer: c) Space before

21. Which of the following is used to indicate how much space is added after the selected paragraph?

- a) Left indent
- b) Right indent
- c) Space before
- d) Space after

Correct Answer: d) Space after

22. Which of the following buttons is used to help the users to quickly arrange graphical and other elements of the document in relation to the main textual content?

- a) Page background
- b) Page setup
- c) Arrange
- d) Page layout

Correct Answer: c) Arrange

23. Which of the following is used to place an object on the page wherever you want?

- a) Wrap text
- b) Position
- c) Bring forward
- d) Send backward

Correct Answer: b) Position

24. Which of the following is used to arrange the text around an object like an image?

- a) Position
- b) Wrap text
- c) Bring forward
- d) Send backward

Correct Answer: b) Wrap text

25. Which of the following brings the selected object in front of all the other objects in MS Word?

- a) Bring forward
- b) Send backward
- c) Wrap text
- d) Position

Correct Answer: a) Bring forward

26. Which of the following brings the selected object behind all the other objects in MS Word?

- a) Bring forward
- b) Send backward
- c) Wrap text
- d) Position

Correct Answer: b) Send backward

27. Which of the following is used to select, show, hide and change the order of objects in the document?

- a) Selection pane
- b) Align
- c) Wrap text
- d) Position

Correct Answer: a) Selection pane

28. Which of the following is used to place objects like pictures, shapes, icons etc. in alignment with margins, edge, or relative to another object in the document?

- a) Selection pane
- b) Align
- c) Wrap text
- d) Position

Correct Answer: b) Align

29. Which of the following is used to combine two or more objects together so that they can be treated as a single object?

- a) Align
- b) Wrap text
- c) Group
- d) Rotate

Correct Answer: c) Group

30. Which of the following is used to rotate or flip the selected object?

- a) Align
- b) Wrap text
- c) Group
- d) Rotate

Correct Answer: d) Rotate

31. Which of the following is an organized listing of the sections, groups and headings of content in a document and identified by page numbers, where they are placed?

- a) Tables
- b) Table of content
- c) Index
- d) Content

Correct Answer: b) Table of content

32. Which of the following tabs in MS Word contains the option of inserting Table of content?

- a) Layout
- b) Reference
- c) View
- d) Insert

Correct Answer: b) Reference

33. Which of the following automatically creates a table of content based on content used as Heading presets in MS Word?

- a) Automatic Table
- b) Manual table
- c) Insert table
- d) Custom table of content

Correct Answer: a) Automatic Table

34. Which of the following table of content menu will create a template of a generic table of contents in MS Word?

- a) Automatic Table
- b) Manual table
- c) Insert table
- d) Custom table of content

Correct Answer: b) Manual table

35. Which of the following software application is used to manage and organize numeric data and financial matters?

- a) Word processing
- b) Designing
- c) Spreadsheet
- d) Presentation

Correct Answer: c) Spreadsheet

36. Which of the following is a software that uses spreadsheet system to organize, display, format and calculate data using advanced features and formulas?

- a) MS Word
- b) MS Excel
- c) MS Access
- d) MS Publisher

Correct Answer: b) MS Excel

37. Which of the following is a process of rearranging or reordering data based on different criteria like size, quality, value or quantity?

- a) Arranging
- b) Sorting
- c) Entering
- d) Evaluating

Correct Answer: b) Sorting

38. Which of the following allows its user to perform numerous calculations on data?

- a) MS Word
- b) MS Excel
- c) MS Publisher
- d) MS Access

Correct Answer: b) MS Excel

39. Which of the following allows the users to present a set of data visually?

- a) Design
- b) Charts
- c) Maps
- d) Pictures

Correct Answer: b) Charts

40. Which chart will be suitable to show the share of three partners in a business?

- a) Line chart
- b) Column chart
- c) Area chart
- d) Pie chart

Correct Answer: d) Pie chart

41. The software that is used for accounting purpose is

- a) MS Word
- b) MS Excel
- c) MS PowerPoint
- d) MS Excel

Correct Answer: b) MS Excel

42. The software that is used to format a document is

- a) MS Word
- b) MS Excel
- c) MS PowerPoint
- d) MS Excel

Correct Answer: a) MS Word

43. The special character that initiates the formula mode in a cell is

- a) /
- b) =
- c) -
- d) *

Correct Answer: b) =

44. The function which is used to re-arrange data according to specific criteria is called

- a) Filtering
- b) Sorting
- c) Organizing
- d) Grouping

Correct Answer: b) Sorting

45. If we want to change the overall design of a word document, we should use

- a) Themes
- b) Page layout
- c) Water mark
- d) Margins

Correct Answer: a) Themes

46. The correct formula to calculate the total in the given table is

- a) $=B2+C2+D2+E2$
- b) $=B2+E2$
- c) $=SUM(B2 \text{ to } E2)$
- d) $=SUM(B2 \text{ from } E2)$

Correct Answer: a) $=B2+C2+D2+E2$

47. The correct formula to calculate the percentage in the given table is

- a) $=B2+C2+D2+E2/400*100$
- b) $=B2+C2+D2+E2*100$
- c) $=(B2+C2+D2+E2)/400*100$
- d) $=(B2+C2+D2+E2)/100*400$

Correct Answer: c) $=(B2+C2+D2+E2)/400*100$

48. Charts are basically used to

- a) Design tables
- b) Organize data in tables
- c) Sort data in different columns
- d) Show the quantities and their relationships graphically

Correct Answer: d) Show the quantities and their relationships graphically

49. To apply the table of content automatically, the most important task is to properly define the

- a) Level of heading
- b) Page numbering
- c) Page layout
- d) Themes

Correct Answer: a) Level of heading

50. Which of the following software is used for word-processing application?

- a) MS Word
- b) MS Access
- c) MS PowerPoint
- d) MS Excel

Correct Answer: a) MS Word

51. Which of the following is a predefined set of formatting, colours and settings that changes the overall design and look of the entire document?

- a) Themes group
- b) Page setup group
- c) Page Background
- d) Paragraph

Correct Answer: a) Themes group

52. Which of the following software application is used to manage and organize numeric data and financial matters?

- a) Word processing
- b) Designing
- c) Spreadsheet
- d) Presentation

Correct Answer: c) Spreadsheet

53. Which of the following allows the users to present a set of data visually?

- a) Design
- b) Charts
- c) Maps
- d) Pictures

Correct Answer: b) Charts

54. To apply the table of content automatically, the most important task is to properly define the

- a) Level of heading
- b) Page numbering
- c) Page layout
- d) Themes

Correct Answer: a) Level of heading
